

## **Eagle Graphics Acquires Quality Mail Marketing Assets to Scale National Fulfillment and Kitting Capabilities**

**KAUKAUNA, WI — February 3, 2026** — Eagle Graphics, a leading national provider of corporate apparel and marketing collateral, announced today the strategic acquisition of key assets from Quality Mail Marketing (owned by ProSolutions, Inc.). This acquisition significantly expands Eagle Graphics' footprint in the warehousing, kitting, and fulfillment sectors, further solidifying its position as a comprehensive 3PL (third-party logistics) partner.

The acquisition adds nearly **50,000 square feet of dedicated warehouse and fulfillment space**, providing the necessary infrastructure to support the rapid growth of Eagle Graphics' signature employee company stores and global distribution services. By integrating Quality Mail Marketing's established fulfillment operations, Eagle Graphics can now offer enhanced kitting services for both internally printed materials and client-manufactured products.

Quality Mail Marketing has built a decades-long reputation for reliability, with many clients maintaining partnerships for over 15 years. This acquisition was driven in part by those existing clients who sought a seamless transition to continue maintaining the high level of service they have come to expect.

"This strategic acquisition will enhance our ability to provide a 3PL warehousing and distribution solution to our national clients," said **Josh Hermann, Owner of Eagle Graphics**. "Our growth has increasingly created a demand for more space, and adding this facility allows us to continue growing for the foreseeable future. We are now able to provide national and international fulfillment not just for the products we print, but for products our clients manufacture or distribute themselves."

Beyond the physical assets, Eagle Graphics prioritized the retention of the experienced workforce at Quality Mail Marketing, where many employees have tenures exceeding 20 years.

"We are thrilled to be able to continue employment for many of the existing staff," Hermann added. "Their expertise is invaluable, and keeping this team together was a vital part of this transition."

This move differentiates Eagle Graphics from competitors by combining in-house printing and state-of-the-art e-commerce store builds with a massive, scalable logistics backbone.

### **About Eagle Graphics**

Based in Kaukauna, Wisconsin, Eagle Graphics is a national provider of corporate apparel, company swag, trade show materials, and marketing collateral. Specializing in high-scale employee company stores with worldwide shipping, Eagle Graphics provides a comprehensive solution for managing global print and marketing distribution through in-house production and proprietary e-commerce technology.
